VOL. XXXXIX: NO. 47 — REDWOOD CITY, CAL., SATURDAY, MARCH 7, 1908. — ESTABLISHED, 1859.

Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away

Redwood City women know how the aches and pains that come when the kidneys fail make life a burden Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all of these disorders. Here's proof of it in a Redwood City woman's words:

Mrs. J. H. Bridgewater, living at 210 Jackson street, Redwood City, Cal., says: "I suffered severely with a pain across the small of my back and it was with me no matter what position I assumed. I was subject to attacks of dizziness and my general health was in a much run down condition. Learning of Doan's Kidney Pills, I procured a box at P. A. Ryan's Drug Store, used them according to directions and they proved to be just the remedy I required. I received relief in a short time, and before stopped their use, I was well and strong."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Building and Loan Safe Investment

Hon. Carroll D. Wright, United States Commissioner of Labor, in his last Building and Loan Report, said:

"It will be seen at once that investment in a building and loan association is as nearly absoluteiy safe as it can be, for the monthly dues and the accumulated profits, which give the active capital of the association, are loaned by the association as fast as they accumulate. They are immediately loaned upon real estate or upon the stock of the association itself. The chances of shrinkage of securities, are reduced to a minimum, and the almost absolute safety of investment secured."

The San Mateo County Building and Loan Association matured series No. 20 on March 1st paying the holders of the stock the amount paid by them as dues $5670.00 and as earnings thereon $3330.00, a total of $9000.00

Numercus subscriptions are now being received for shares in series No. 62, dating from March 1st.

SUPERVISORS HOLD MEETING

Burlingame Incorporation Goes Over

LIQUOR LICENSES ARE GRANTED

Railway Company Enter Protest. Many Claims Allowed. Kicked by Cow.

The board of Supervisors met in regular session last Monday. All the members were present.

The health officer presented his regular report as follows: To the honorable, the Board of Supervisors of San Mateo county. I herewith present my regular monthly report for month ending February 29th. The health of the county has not been so good the past month. Smallpox is practically under control in the county. I have collected $562 for 562 burial permits and $10 for one disinterment permit, making a total of $572 which has been paid into the treasury.

The following report was received from the county entomologist.

"To the honorable Board of Supervisors: The warm weather of the past month has been exactly suited to the development of mosquito larvae, thus requiring active work to keep them from emerging. The marsh to the north of Burlingame was oiled during the month as was also part of the San Mateo marsh. An unusually high tide during the first part of the month flooded the entire reclaimed district in the neighborhood of Coyote Point and formed an abundance of excellent breeding places. In all, 600 gallons of oil were used during the month. Shipment of nursery stock have been examined at Redwood City and San Bruno, and advice has been given to numerous parties for the control of insect pests. The Southern Pacific Company was requested to drain when possible, the standing pools of water along their right of way through the county. The request was taken notice of and I am informed by Mr. McGovern that the work will be done at once. A meeting of the county entomologists of San Mateo , Santa Clara, Santa Cruz, Monterey and San Benito counties was held at San Jose on February 15th and the Association of County Entomologists was formed. Through this organization it will be possible for the officers of any of the counties represented to profit by the experience of the entomologists in other counties in the control of the injurious insects. Respectfully submitted J. S. Hunter"

County Clerk Nash presented the report of his collections as for clerk's fees, $164.50; law library fund tax, $22.

In Recorder Johnston's office $782.--40 were collected in fees.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential.
Dr. Shoop's Night Cure is the Local.
Dr. Shoop's Restorative, the Constitutional.
The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.
The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

RURAL SCHOOL CONSOLIDATION

In your issue of January 25, 1908, I gave a short history of the founding of a High School in a country community of Illinois where previously three inefficient district schools were trying discouragingly to minister to the educational needs of the people.

In a copy of the School News of Taylorville, Illinois, for July 1907 I find an account of this rather noted school which gives more valuable information to those in this county who may be interested in the consolidation of rural schools, and the consequent improvement. My reason for again writing on the subject is the evident need for a careful consideration of this matter by three districts tributary to this High School. With the present faculty, 100 to 125 students can be efficiently handled by Sequoia High School. Our enrollment has been 106, 83 and 34 for the three years to date. The three districts in three years have sent us 7 pupils, and should have sent us from 15 to 25. The plan I suggest is one way and probably the best way, to reap the benefits of the High School which they help to support

I think the following article will be interesting to the people of the districts mentioned, and to the general public.

THE WAGONS ARE RUNNING.

The educational event of the year, in Illinois, occurred in Magnolia township Monday, May 27. Magnolia township is in Putnam county. Putnam is about the smallest county in the state of Illinois.

Fancy a two and a half story brick building, containing four recitation rooms, two laboratories, an auditorium seating three hundred persons, a boys' manual training room, a girls' play room, furnace, fuel, and cloak rooms, indoor toilet rooms, steam heat, hot and cold water, a gas plant, a campus of twenty-four acres dotted with forest trees oak, elm, ash, hard maple, walnut and locust and sloping gently from north to south to "Clear Creek," two fine wagons, and an elegant little office or board room for the school directors!

The event was the dedication of all this to the uses of School District No. 532. Five districts in Magnolia tried to get together in 1904, but the plan failed. In 1905, three districts, 22, 23 and 25 tried again. The trustees refused to grant the prayer of the petitioners. The petitioners appealed to the county superintendent, George W. Hunt, and what Mr. Hunt did, and his excellent reasons therefor are fully set forth in the latest report of the Superintendent of Public Instruction for Illinois. The board of directors consists of Victor Kays, W. B. Mills and John Wilson. John Swaney gave thel and so it is called the John Swaney School. John A. Kay's estate, W. G. Griffith, F. E. Smith, John Wilson, Perry Mills, W. L. Mills and Louis Pricke made up a purse of $2000, and George W. Hunt therw in a set of manuel training tools. There is no law against public spirited citizens of moderate means giving something toward the little home school if they want to, after the district has gone to the limit.

The dedicatory exercises began in the morning and lasted all day. The Superintendent of Public Instruction delivered the principal address, and did it well.

The teachers are McNeal C. James, a graduate of the Streator Township High School, of the State Normal University, and a senior in the Agricultural College of the University of Illinois; Mss Mabel Oathouti; and Miss Eva G. Ratekin, a graduate of the Millitary Tract Normal School. The directors are looking for a normal school teacher who is also a teacher of domestic scencie. There is nothing the matter with that faculty.

The course of study provides for four years work above the eighth grade, and includes the usual amount of instruction in algebra, geometry, Latin, botany horticulture, animal husbandry and household science.

Adjacent to the campus is a branch experimental station connected with the station at the University of Illinois.

Last year "two wagons were operated at public expense to convey the children from the two outlying districts." Also, it is said that two citizens residing in District No. 325 talk of enjoining the directors next September if they begin to do it again. Maybe they will, but probably they won't. For old John Swaney told the writer about three years ago that it was the purpose of his friends in Putnam county to provide for their children the best appointed and best kept country school in the United States. Theyh ave done it, I suspect. Hence the improbability that any of their neighbors will interfere with the wagons.

The tuition in the John Swaney School District 325, Magnolia township, Putnam county, Illinois, is nine dollars per semester, and some students from other districts are payingit .Tuition pupils furnish their own transportation.

ALFRED BAYLISS,
Principal of the State Normal School.

CITIZENS TO VOTE ON BONDS

A resolution of intention to order an election for water and town hall improvements was passed Monday night by the board of town trustees. The date of the election has not yet been set but it will be at some time during the month.

An application was made by A. Hess for the acceptance of 1640 feet of macadamizing done on Roosevelt avenue, and a resolution was adopted ordering that all interested property owners shall appear March 16th, at the meeting of the board and state their objections, if any they have, why the application should not be allowed.

The Virginia Mill Company applied for 4-inch water pipe to be laid on Redwood Avenue, for a distance of 400 feet. It is the intention of the company to build several cottages on its property afong the avenue.

An order was made that a call for bids for 2000 feet of 4-inch pipe with connections, hydrants, etc.

Street Superintendent Dickey was directed to have the water-wagon repaired, the cost not to exceed $100.

Several complaints having been made on account of the accumulation of garbage, the board will make an investigation as the most practical and reasonable method of the disposal of same.

The claims of James Curran for $75 and that of Robert Brown for $113.75, were the only ones presented and payment of them was ordered.

The Cow Puncher

"The Cow-Puncher" is advertised at the Alhambra for one night, Sunday, March 8. Hal Reid the author has laid his plot in the picturesque state of Arizona. He has taken his heroine from the east and his hero from the West, brought them together on the vast plains that nature claims as her own and united them with a love as pure as the air they breathe and circles it with a band of gold. He has made his people natural and true to life. His Black Hank and Spokane Ike are gems in character sketching. Tacoma Tim and Ann Slattery are full of genuine humor. Lutchia Cordova andCarlos Mendoza haveall the subtlety of the Mexican, Billy Lawton,the hero's brother is an example of a boy raised well but weak. Tom Lawton's character is best expressed in the simple words, "A Man." Geraldine with her youth, sincerity and beauty and womanliness, is just the girl you would want Lawton to marry. The other parts are convincing. With this material Mr. Reid has made a great play. W. F. Mann has staged it in a most sumptuous manner, and several specialties are introduced to add life and color to the drama.
